Alpine, Nordic and Snowboard skiing, including the use of lifts, is a dangerous sport with inherent and other risks. These risks include but are not limited to, use of surface lifts and chairlifts, variations in snow, steepness and terrain, trail side drop-offs, ice and icy conditions, moguls, rocks, trees and other forms of forest growth or debris (above or below the surface), bare spots, lift towers, utility lines, poles and guy wires, snowmaking equipment and component parts, trail fences and the absence of such fences and other forms of natural or man-made obstacles or other skiers. Trail conditions vary constantly because of weather changes and skier use. These are some of the risks of skiing and riding. All of the inherent and other risks of skiing present the risk of serious and/or fatal injury.

I agree that all disputes arising under this contract and/or from my use of the facilities at Ski Big Bear shall be litigated exclusively in the Court of Common Pleas of Pike County or in the United States District Court for the Middle District of Pennsylvania.

The Responsibility Code

Skiing can be enjoyed in many ways. At ski areas you may see people using alpine, snowboard, telemark, cross-country or other specialized ski equipment, such as that used by disabled or other skiers. Regardless of how you decide to enjoy the slopes, always show courtesy to others and be aware that there are elements of risk in skiing that common sense and personal awareness can help reduce.

Observe the code listed below and share with other skiers the responsibility for a great skiing experience.

1. Always stay in control and be able to stop or avoid other people or objects.
2. People ahead of you have the right of way. It is your responsibility to avoid them.
3. You must not stop where you obstruct a trail or are not visible from above.
4. Whenever starting downhill or merging into a trail, look uphill and yield to others.
5. Always use devices to help prevent runaway equipment.
6. Observe all posted signs and warnings. Keep off closed trails and out of closed areas.
7. Prior to using any lift, you must have the knowledge and ability to load, ride and unload safely.

Know the Code. It's Your Responsibility. This above is a partial list. Be safety conscious. Officially endorsed by: The National Ski Areas Association
